OUR COMPANY

Individual commitment to a group effort - that is what makes a team work, a company work, a society work, a civilization work.

Welcome to Mainsol, a company grounded in a decade-long commitment to delivering quality solutions with a modest touch. Over the years, we've quietly but effectively contributed to the industry, focusing on understanding and meeting the evolving needs of our clients and the market.

At Mainsol, our strength lies in our dedication to providing reliable and practical solutions. We may not boast loudly, but our work speaks for itself. With a team of diligent professionals, we navigate the dynamic landscape of technology and business, always with an eye on creating value for our clients.

OUR COMPANY

Our approach is centered on embracing simplicity and functionality. We believe in the power of subtle innovation, ensuring that our solutions are not only effective but also easy to integrate and use. Collaboration is at the heart of what we do, and we prioritize building lasting relationships based on trust, transparency, and mutual respect.

As we move forward, Mainsol remains committed to its core values of humility, reliability, and client satisfaction. Join us on our journey as we continue to contribute, quietly but meaningfully, to the progress of our industry.

OUR **VISION** AND **MISSION**

At the core of our **MISSION** is the commitment to delivering unparalleled excellence. We strive to provide top-tier drilling and well services, cutting-edge flow solutions, and a comprehensive range of technical equipment rental. These offerings are complemented by our unwavering dedication to providing outstanding service, all geared towards facilitating not just energy production, but efficient and sustainable practices that align with the evolving needs of the industry.

Looking ahead, our **VISION** extends beyond excellence - we aspire to be the unequivocal leader in energy services within the Sub-Saharan Africa (SSA) Sub-Region. Rooted in the principles of environmental consciousness, social responsibility, and governance standards, we aim to set new benchmarks for the industry. As we evolve, our commitment to innovation, sustainability, and community engagement will continue to drive us towards becoming the foremost choice for energy solutions in the SSA Sub-Region.

OUR **VISION** AND **MISSION**

USD 6.0 Million

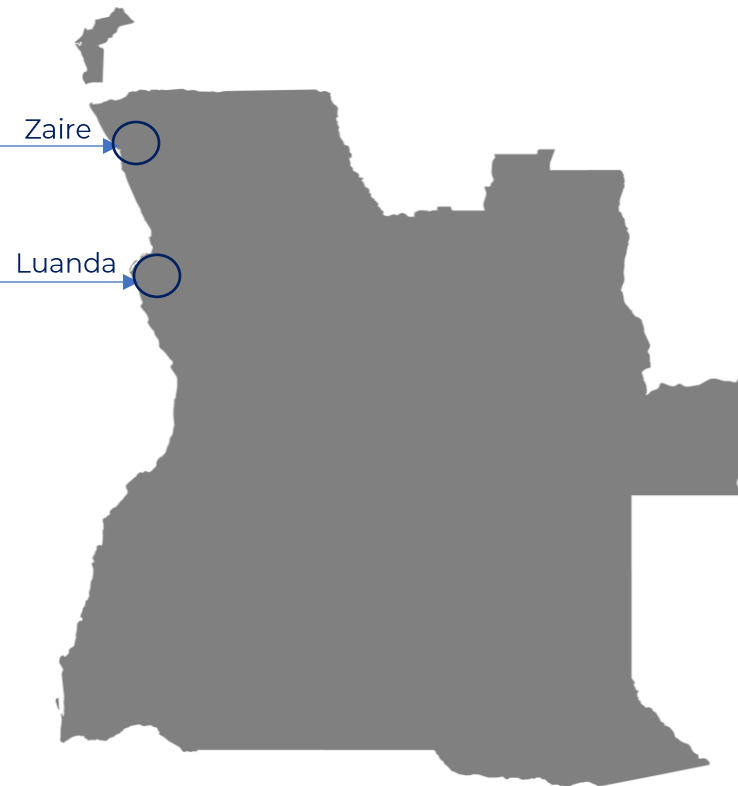

25,000 LMP in Kwanda Base, Soyo

Mainsol is strategically investing \$6 million in a state-of-the-art 25,000 barrels Liquid Mud Plant (LMP) at our Soyo, Kwanda Base, reinforcing our dedication to advancing technologies and enhancing operational capabilities in the oil and gas sector.

USD 4.1 Million

Luanda

Mainsol is further fortifying its position in the oil and gas sector with a substantial \$4 million investment in drilling and completion chemicals, along with state-of-the-art oilfield equipment available for rental at our base in Luanda. This strategic move underscores our commitment to providing top-notch solutions and services for the evolving needs of the industry.

OUR HISTORY

OUR HISTORY

2020

· Navigated challenges amid global supply chain disruptions from COVID, facing shortages and delays in obtaining essential parts

2022

· Strategically restructured, expanding the target market and refining the business model to concentrate on support and maintenance services in the Oil & Gas sector.

2023

· Executed an ambitious expansion strategy, attracting new investors to fuel growth initiatives and enter new markets efficiently.

ESG - ENVIROMENTAL, SOCIAL AND GOVERNANCE

We are proud to be at the forefront of sustainable business practices, aligning our operations with Environmental, Social, and Governance (ESG) principles and contributing to the United Nations' Sustainable Development Goals (SDGs)

Environmental Stewardship

- As a responsible corporate citizen, we recognize the urgent need to address environmental challenges. We are dedicated to minimizing our ecological footprint by implementing innovative and sustainable practices. Our initiatives include energy efficiency measures, waste reduction strategies, and the promotion of circular economy principles. By incorporating renewable energy sources and adopting eco-friendly technologies, we aim to mitigate climate change and safeguard natural resources for future generations.

ESG - ENVIROMENTAL, SOCIAL AND GOVERNANCE

Social Responsibility

- Our commitment to social responsibility extends beyond our business operations to empower communities and enhance societal well-being. Through strategic partnerships and community engagement programs, we strive to make a positive impact on education, healthcare, and economic development. By fostering inclusivity and diversity within our workforce, we embrace the notion that a diverse team fosters innovation, creativity, and resilience.

ESG - ENVIRONMENTAL, SOCIAL AND GOVERNANCE

Governance Excellence

- Until now, tank cleaning involved laborers equipped with hoses, pressure, washers, shovels, and squeegees. The task has been slow, labor-intensive, dirty, and potentially dangerous. Having people working inside a filthy tank is not only time consuming, but it also poses an unnecessary risk. Consequently, the economic and QHSE needs for automatic tank cleaning are obvious. Mainsol answers this need with the ATC* automatic tank-cleaning technology, which is completely automatic, reduces cleaning time and personnel requirements, and minimizes - or even eliminates - confined space entry. Within the industry's more stringent QHSE environment, the ATC technology improves safety, reduces the number of personnel onboard, significantly reduces waste generation, and minimizes downtime during the cleaning process.

OUR PARTNERS

OUR PARTNERS

WHAT **WE OFFER**

To give real service you must add something which cannot be bought or measured with money, and that is sincerity and integrity.

Upstream

Downstream

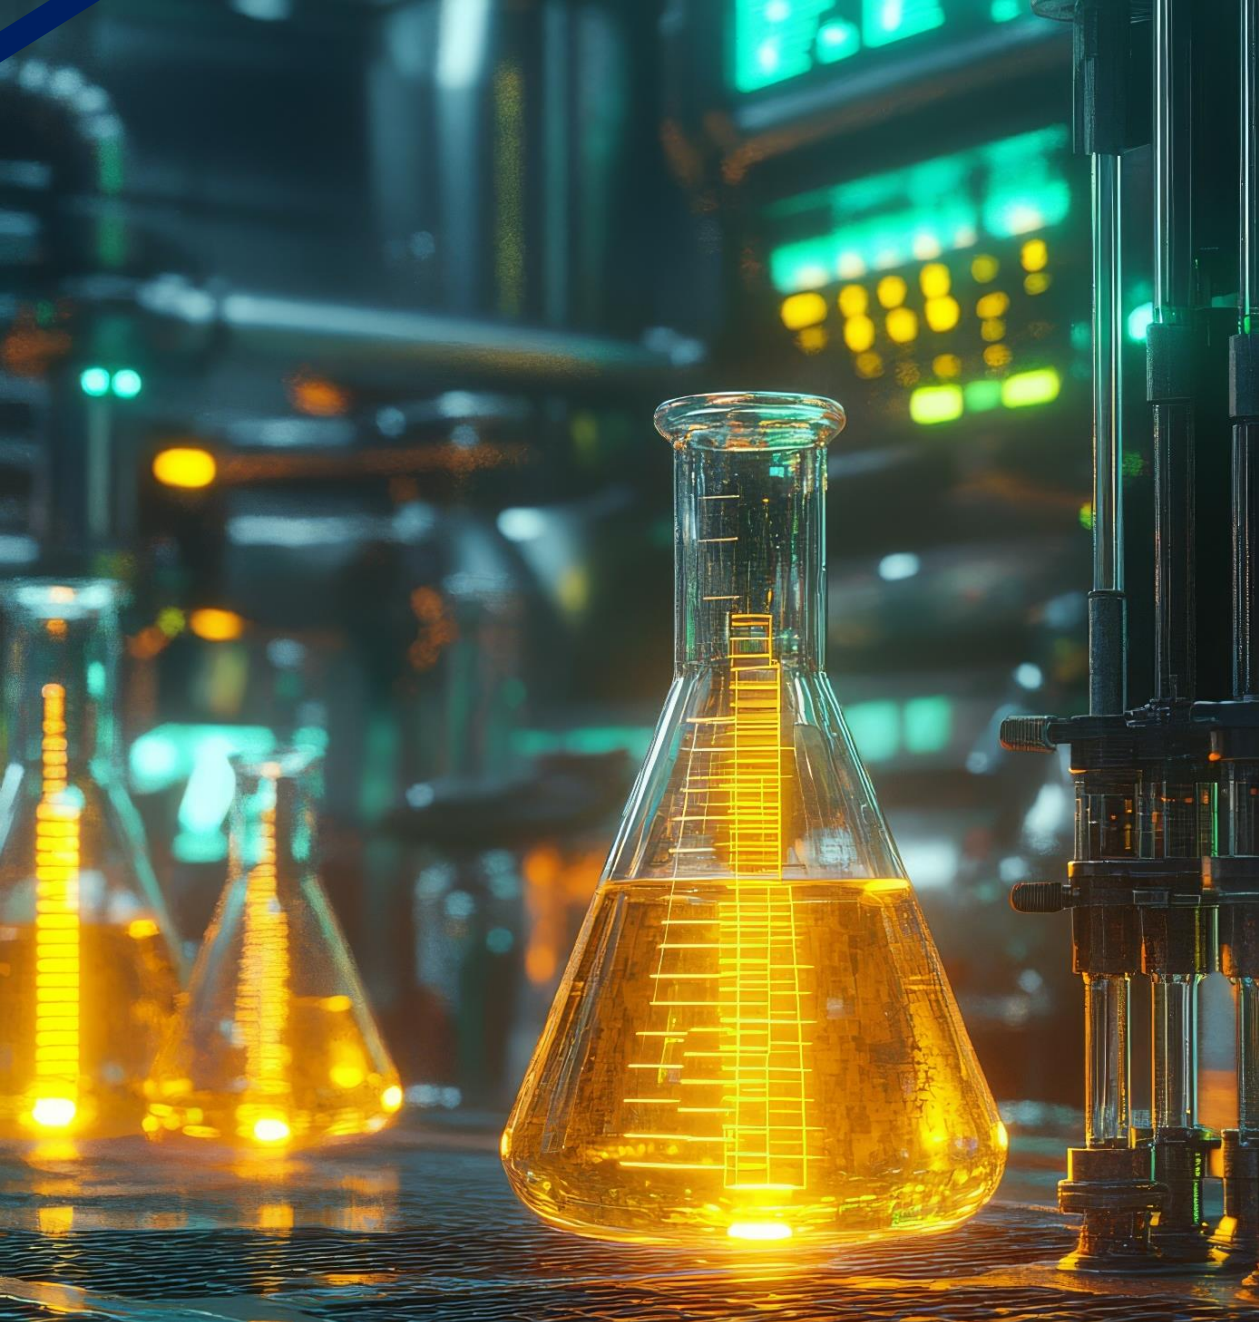

Marine

Renewables

OUR SERVICES

Drilling and Completion Fluids and Production Chemicals

- Drilling and Completion Fluids: Precision-engineered solutions that maximize drilling efficiency, protect formations, and enhance production potential. Our advanced fluid systems streamline operations, reduce costs, and drive superior well performance throughout the entire lifecycle - from spud to completion.

Drilling Fluids

- Water-Based Muds (WBMs)
- Oil-Based Muds (OBMs)
- Synthetic-Based Muds (SBMs)
- Air/Foam/Mist Drilling Fluids
- Brine-Based Drilling Fluids

OUR SERVICES

Completion Fluids

- Clear Brine Fluids
- Viscosified Brines
- Oil-Based Completion Fluids
- Reservoir Drill-In Fluids
- Workover Fluids

Specialty Fluids

- Lost Circulation Materials (LCMs)
- Spotting Fluids
- Spacer Fluids
- Packer Fluids
- Drill-Ahead Fluids

WELL INTERVENTION SERVICES

We offer a comprehensive range of well intervention solution tailored to meet the specific needs of your operations. Our Slickline Services provide precision in setting and retrieving downhole equipment, while our Coiled Tubing Services enable versatile interventions, including cleanouts, acidizing, and milling. With our Filtration and Wellbore Cleanout Services, we ensure that your wellbore is free from debris, maximizing flow efficiency.

Our Well Testing Support Services deliver critical data to evaluate well performance and optimize production strategies. We also focus on maintaining the integrity of your assets with our Well Integrity Services, ensuring long-term reliability and safety. Finally, our Stimulation Services are designed to enhance well productivity through tailored chemical and hydraulic treatments. Together, these services work synergistically to optimize well performance, reduce downtime, and extend the productive life of your assets.

MEASUREMENT, AUTOMATION, **CONTROLS AND INSTRUMENTATION**

At the forefront of optimizing operational efficiency and ensuring precise control, our Measurement, Automation, Controls, and Instrumentation Services provide comprehensive solutions tailored to the complex needs of the oil and gas industry. We specialize in delivering cutting-edge technologies and expertise to monitor, regulate, and automate critical processes, ensuring safety, reliability, and performance across all operational stages.

Our services encompass the full spectrum of instrumentation and control systems, from initial design and installation to maintenance and calibration, empowering our clients with the accuracy and insights needed to make informed decisions and maximize productivity in even the most challenging environments.

NICHE TECHNOLOGY

Our company in partnership with industry leaders in constant quest for improved and enhanced technology, R&D involvement specializes in providing niche technology services tailored to the ever-evolving needs of the oil and gas industry. We harness the power of advanced analytics, artificial intelligence, and Internet of Things (IoT) solutions to optimize exploration, production, and distribution processes. Our innovative approach includes:

- ❑ Predictive maintenance systems using machine learning algorithms
- ❑ Real-time reservoir modeling and simulation
- ❑ Smart sensor networks for enhanced field monitoring
- ❑ Augmented reality applications for remote asset management and training

By integrating these cutting-edge technologies, we empower our clients to make data-driven decisions, improve operational efficiency, and maintain a competitive edge in the dynamic energy landscape. Our commitment to technological innovation ensures that we deliver value-added solutions that address the unique challenges faced by the oil and gas sector.

WASTE MANAGEMENT AND SOLID CONTROLS

Efficient waste management and solids control are critical components of safe and sustainable oil and gas drilling and completion operations. Our comprehensive services are designed to minimize environmental impact, enhance operational efficiency, and ensure compliance with industry regulations. By employing advanced technologies and best practices, we effectively manage drilling waste, including cuttings, fluids, and other by-products, to reduce the ecological footprint of drilling activities.

Our solids control solutions are tailored to optimize fluid systems, maximize resource recovery, and support seamless, cost-effective operations. Through our commitment to environmental stewardship and operational excellence, we help our clients achieve their drilling and completion goals while safeguarding the environment.

MANPOWER AND TRAINING SERVICES

- The company provides manpower solutions and training services for the oil and gas industry. They offer recruitment, training, safety, leadership development, competency assessment, and professional development services to ensure their clients have a qualified and safety-conscious workforce. They help organizations stay competitive by focusing on continuous improvement and adapting to new technologies.

We offer:

- Recruitment and placement of technical and non-technical personnel
- Customized training programs to enhance workforce capabilities
- Safety and compliance training to meet industry standards
- Leadership development and succession planning
- Competency assessment and skills gap analysis
- Ongoing professional development and upskilling initiatives

Equipment rental, Inspection Calibration, Maintenance, Installation, Certification and Procurement

Our comprehensive suite of equipment-related services ensures that oil and gas operations run smoothly, safely, and efficiently. We offer a wide range of high-quality equipment for rent, supporting services from seismic, drilling, completions, production to plug and abandonment activities, allowing clients to access cutting-edge technology without significant capital investment.

Our rigorous inspection and calibration processes guarantee that all equipment meets industry standards and regulatory requirements. Our expert technicians provide regular maintenance to maximize equipment lifespan and minimize downtime. We handle complete installation services, ensuring that equipment is set up correctly and optimally. Our certification services verify compliance with all relevant industry and safety standards.

WHY CHOOSE **MAINSOL**

Good manners are cost effective. They not only increase the quality of life in the workplace, they contribute to employee morale, embellish the company image, & play a major role in quality service.

- ✓ **Unmatched Expertise**
- ✓ **Commitment to Excellence**
- ✓ **Innovation and Sustainability**
- ✓ **Community-Centric Approach**

We prioritize local content, actively engaging with communities and collaborating with local talent and suppliers. This commitment reflects our dedication to responsible business practices
